DISCUSSION

(Use or Report results of multiple completion on Well Completion or Resumption Report and Log form.)

proposed work, if well is directly fitted.

Oilwells Energy Corporation respectfully requests a 30-day extension in which to evaluate the potential to perform a microbe treatment on this well. A similar treatment was successful on the 20-25 and 22-2 well in the area. If, within 30 days, we learn that this well is not a good bet, then on the 31st, we will schedule a P&A.
