A pump change was made 3/26/02 as noted in our letter of 2/13/02. Water and small amounts of gas (enough to run the pumping unit but not enough to run the compressor in order to buck the line pressure) are being produced by this well. It is SG's intent to continue production and hope the well can build up enough gas pressure to produce into the sales line.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
