13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

SG finally received approval from the Navajo Nation for the West Bisti Gathering System, and this pipeline was constructed during May and June, 2000. The subject well has been connected to the pipeline and the line is being purged before connecting this well to the sales line. I believe the shut-in status for this well is due to expire August 1, 2000. Although we plan to have this well producing on/or about August 15, 2000, we are requesting a continuation of the shut-in status to carry SG over the approved shut-in expiration date. The proper notices will be filed with your office as soon as this well is producing.

THIS APPROVAL EXTENDS SEP 01 2000
