Maralex Resources on behalf of S.G. Interests is testing the West Bisti 26-13-17 #1. The well is producing at a rate of 65 barrels of water per day. The initial gas rate is approximately 20 MCFD. According to the approved plan with the BLM, this initial test would be reported. The well will be tested for a 60 day period to show that it is economical. We will report the final test results to the BLM after this testing period.
