13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well lost productivity and was unable to de-water after the offset wellbore (the original Cowsaround #2-14) was cement squeezed during P & A operations.

Within the last several weeks, we have enjoyed some success with dilute acid treatments on CBM wells with apparently no damage to the coal. Therefore, during May 2001, we will acidize the Cowsaround #2-14R and attempt to return it to production.
