(Note: Report results of multiple completion on Completion or Recompletion Report and Log form.)

13. Describe Proposed or completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion Oil & Gas proposes to use the lined drill pit on location for temporary produced water storage. Water will be trucked offsite to an approved SWD facility for disposal. The Flush No. 1 SWD has been drilled, and we are working on the completion and the injection facility design and construction. The Merrion SWD well should be in operation in about six months. A holding tank will be installed and the drill pit will be closed at that time. We propose to cease discharge to the drill pit at the subject well by July 1, 2001.
