17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

During extensive reworking of the wells on the lease #7 was re-entered in May 1974. The liner could not be pulled with equipment available at that time. In June 1975 attempts were made to clean out #7 but again the liner would not move. Production has declined below economic levels and we request that the well be classified as TA. We believe that production can be improved if we are able to pull liner and clean out. Workover has been so costly that we wish to wait another year before spending more money.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
