HISTORY OF OIL OR GAS WELL

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give the date, position, and number of shoe. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.

MUDGING AND CEMENTING RECORD

Amount of mud used	Kind of mud	Kind of cement	Amount of cement
--------------------	-------------	----------------	------------------
