Unit G, Section 30, T28N, R05W Rio Arriba County, New Mexico Elevation 6572' GL, 6583' KB LAT: 36° 38.09' Long: 107° 23.8'

### **Summary:**

The San Juan 28-5 Unit #32 was spudded in October of 1958 and was originally completed in the Point Lookout. In August, 1993, the Menefe, Cliff House and Lewis were added in three stages. A spinner survey will be run on this well to help quantify the contribution of the Lewis in the 28-5 Unit. This data, along with data from other spinner surveys and the Shale Data Wells, will also be used in the completion design optimization of the Lewis.
