NEW MEXICO OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

6-1-56

PACKER-SETTING AFFIDAVIT
(Dual Completions)

STATE OF New Mexico)
County of San Juan) ss

L. A. Bedford, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Pacific Northwest Pipeline Corp. in the capacity of Drilling Engineer and as such is its authorized agent.

That on July 22, 19 59, he personally supervised the setting of Baker 7" Mod. H. Packer in Pacific Northwest Pipeline Corp.s
(Make and Type of Packer) (Operator)

San Juan 28-5 Well No. 34-18, located in Unit
(lease)
Letter L, Section 18, Township 28N, Range 5W, NMPM,
Rio Arriba County, New Mexico.

That said packer was set at a subsurface depth of 7325 feet,
said depth measurement having been furnished by Tubing Measurement.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

Pacific Northwest Pipeline Corp.,
