Attn: Mr. D.E. Hall, District Engineer

Dear Mr. Hall:

We have received Notice of Intention to Plug pertaining to the W. Rodney DeVilliers #1 Dulce 6 well located in the SE₄ Section 6, Township 28N-2W, Rio Arriba County, New Mexico.

We have noted that you intend to cut off the 9-5/8" casing at approximately 500' and fill the hole with mud to the top of the surface casing where a cement plug will be installed. We will require that at least a 100' plug be placed in the 9-5/8" casing stub in addition to the plugs which you have indicated. Will you please amend your Notice of Intent to indicate the above and return to us.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
