Re: Application for Permit to Drill
San Juan 28-6 Unit #184
SW/4 Section 7, T-28-N, R-6-W
Basin Dakota

Dear Mr. Long:

Information regarding existing roads, pipelines, flow lines, etc. relative to the above well location is included on the enclosed attachments. Other pertinent information is listed below.

Water for drilling and completion operations will be obtained from a water well located in the SW/4 Section 23, T-28-N, R-6-W. Waste disposal will be buried in the burn pit, latrine, or reserve pit as applicable. There will be no camp nor air strip associated with drilling this well. Upon completion or abandonment of this well, the location will be cleaned and leveled and a dry-hole marker placed, if applicable.

Yours truly,

D. G. Brisco

D. G. Brisco
Drilling Clerk
