RE: Accept downhole commingle applications and allocation factors

Dear Ms. Cole:

The following well was reviewed for downhole commingling. After reviewing the production history for this well, we concur with the allocation factors established in your application. Since oil was not present during flow test operations, the oil percentages are based on the gas allocation. The effective date is the date that downhole commingling actually occurs. The well and the approved allocation factors are listed below.

Well Name	Lease	Location	API#	Formation Allocation	Formation Allocation
San Juan 28-6 #114M	NM 013657 MV PA DK PA	sec 25, T28N, R6W	3003926649	MV gas 28% Oil 28%	DK gas 72% Oil 72%

If you have any questions, please contact Adrienne Garcia at (505) 599-6358 or the undersigned with this office at (505) 599-6367.

Sincerely,

/s/ Jim Lovato
