13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Conoco Inc. respectfully request that we be allowed to move the surface location for the originally approved APD due to surface concerns associated with the twining of this well with the SJ 28-7 #252F. BHL will remain the same but the surface location will slightly move from the originally approved spot. This will not result in any new surface disturbance outside of the originally approved surface location.

Originally approved surface location: 745' FNL & 2145' FEL, Sec. 34, 28N, 7W
Proposed surface location: 755' FNL & 2145' FEL, Sec. 34, 28N, 7W

14. I hereby certify that the foregoing is true and correct.
