R & G Drilling Company
P.O. Box 327
Farmington, New Mexico

Attn: Mr. William C. Russell, President

Dear Mr. Russell:

We have just received Form C-110 for your #47 Hammond well located in Unit K, Section 33-27N-8W. You have indicated in the "Remarks" column that this is a Mesaverde-Dakota dual completion, although you have not specified on the form C-110 which formation this form was filed for.

Our files indicate that nothing previous to the Form C-110 has been filed since we received Notice of Intention to Drill of September 21, 1960. We cannot approve the C-110 on either side of this dual until Miscellaneous Reports have been filed relative to your casing program showing amounts of cement used, the intervals covered with cement and casing tests. We will also need Form 9-330, "Well Log" summarizing all operations on this well and showing the formation record, and Form C-104, Request for Allowable, for each formation. It will also be necessary that an application be filed for administrative approval of the dual completion as per Rule 112-A. In addition, a packer leakage test must be conducted showing that the zones are separated prior to approval for production.

Yours very truly

ECA:ks
