Subject: Application for Dual Completion
C. A. McAdams "B" No. 1.

Mr. A. L. Porter (2)
New Mexico Oil Conservation Commission
P. O. Box 1901
Santa Fe, New Mexico

Dear Sir:

In accordance with the provisions of Rule 112-A, Multiple Completions, as amended by Order No. R-1214, dated July 3, 1958, Pan American Petroleum Corporation requests administrative approval to dually complete the C. A. McAdams "B" No. 1, located in Unit J, Sec. 28, T-27-N, R-10-W, San Juan County, in the Gallup (oil) and Dakota (gas) zones. This well is in the Angels Peak Gallup Oil Pool and the Angels Peak Dakota Gas Pool.

The C. A. McAdams "B" No. 1 is located approximately one mile east of El Paso Natural Gas Company's Haerfane Unit No. 105 (see attached plat) which is dually completed in the Gallup and Dakota zones as authorized by Commission Order No. R-1367 dated April 13, 1959.

As specified in Rule 112-A, we are submitting an Application for Dual Completion, a Diagrammatic Sketch of Dual Completion, a plat showing the location of the C. A. McAdams "B" No. 1 and all offsetting wells, including the names and addresses of offset operators, and a copy of the electrical log which has been posted with pertinent completion data.

A successful leakage test on the subject well was completed May 19, 1959, and has been submitted to the NMOC District Office in Aztec for approval. A packer setting affidavit was submitted along with the packer leakage test.

By registered letter, offset operators are being furnished copies of this letter and a copy of the Dual Completion Application.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION
