P. O. Drawer 330
Farmington, New Mexico

Attention: Mr. Nae R. Stone

Administrative Order TX-13

Gentlemen:

Reference is made to your letter of March 9, 1962, wherein you request authority to complete your Federal Fullerton Well No. 10 located in the NE/4 SE/4 of Section 13, Township 27 North, Range 11 West, NMPM, San Juan County, New Mexico, with 4 $\frac{1}{2}$ -inch OD non-upset casing and produce the Dakota hydrocarbons through said casing string as a tubingless completion.

Inasmuch as you expect that the Dakota will produce with a gas-liquid ratio in the neighborhood of 100,000 to one, there should be no production problem or waste encountered by your proposed completion.

The British-American Oil Producing Company, therefore, hereby authorized to complete and produce the subject well in accordance with the procedure outlined in your letter of March 9, 1962.

The Commission does reserve the right, however, to review this matter at any time that it appears waste may be resulting from the proposed method of production.

Very truly yours,

A. L. PORTER, Jr.,
Secretary-Director
