Attn: Mr. William Cutler

Gentlemen:

Packer leakage test received in this office October 24, 1963 for your 437 San Juan Unit 32-7, Wb 9-327-7 indicated that there is communication between the producing zones.*

You are, therefore, directed to take immediate remedial action to separate the producing formations and, upon completion of the workover, to re-file packer leakage test reports.

Yours very truly,

*Emery D. Arnold
Supervisor, District #3*
