Attention: Mr. A. L. Porter, Jr.,  
Secretary-Director

Re: The British-American Oil Producing Company's  
Fullerton #6, 790' FWL, 1650' FNL,  
Section 11-27N-11W, San Juan County, New Mexico

Gentlemen:

Complying with Rule 112-A, Multiple Completions, we are filing application for administrative approval to dually complete Fullerton #6 as a Gallup Sand and Dakota Sand producer. The well is to be completed as an oil over gas dual completion and the hydrocarbons from each of the two zones will be safely and efficiently produced through parallel strings of tubing. Each tubing string will be 2-1/16" OD, 1.75" ID, 3.4# per foot, N-80 with Aztec IJ tubing joints. A Baker Model "D" production type packer will be used to segregate the separate zones of the dual completion and will effectively prevent communication between all producing zones. Attached to this letter you will find two copies of the application, "Application For Dual Completion," and two copies of the following information:

- (A) Diagramatic sketch of the dual completion.
- (B) Plat showing the location of all wells on applicant's lease, all offset wells on offset leases, and a list of the names and addressees of operators of all leases offsetting applicant's lease.
- (C) Evidence that said offset operators have been furnished copies of the application.
- (D) Electrical logs of the well with tops and bottoms of producing zones and intervals of perforation indicated thereon.

The British-American Oil Producing Company's  
Fullerton #6, 790' FWL, 1650' FNL,  
Section 11-27N-11W, San Juan County, New Mexico  
Page #2

---

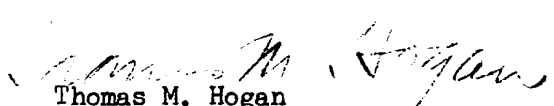

Rule 112-A states that the Secretary-Director shall have the authority to grant an exception to the requirements of Rule 112-A (I) and to approve the dual completion of a well without notice and hearing if the well is to be dually completed within the limits of two defined pools or within one mile thereof, and the Commission has previously authorized the dual completion of a well in the same zones as proposed, after notice and hearing.

Your Aztec office has informed us that Western Natural Gas Company dually completed their Schlosser #1, located in the approximate C NE NW Section 10-27N-11W. Commission approval was given to Western Natural to dually complete their Schlosser #1 by Order No. R-1577 dated January 18, 1960.

We respectfully request administrative approval to dually complete our Fullerton #6 since Schlosser #1 has previously been dually completed in the Gallup and Dakota and is within one mile of our well.

Very truly yours,

THE BRITISH-AMERICAN OIL PRODUCING COMPANY

  
Thomas M. Hogan  
District Superintendent

## APPLICATION FOR DUAL COMPLETION

Field Name <b>West Kutz Canyon</b>		County <b>San Juan</b>	Date <b>6-6-60</b>
Operator <b>British-American Oil Producing Co.</b>		Lease <b>Govt. Fullerton</b>	Well No. <b>6</b>
Location of Well	Unit <b>1650' FNL-760' FWL</b>	Section <b>11</b>	Township <b>27N</b>
		Range <b>11W</b>	

1. Has the New Mexico Oil Conservation Commission heretofore authorized the dual completion of a well in these same pools or in the same zones within one mile of the subject well? YES ☒ NO ☐

2. If answer is yes, identify one such instance: Order No. **R-1577** ; Operator, Lease, and Well No.:

**Western Natural, Schlosser #1**

3. The following facts are submitted:	Upper Zone	Lower Zone
a. Name of reservoir	<b>Gallup</b>	<b>Dakota</b>
b. Top and Bottom of Pay Section (Perforations)	<b>5778 - 5796' KB 5852 - 5869' KB</b>	<b>6417 - 6438' KB 6454 - 6467' KB</b>
c. Type of production (Oil or Gas)	<b>Oil</b>	<b>Gas</b>
d. Method of Production (Flowing or Artificial Lift)	<b>Artificial Lift</b>	<b>Flowing</b>

4. The following are attached. (Please mark YES or NO)

- Yes** a. Diagrammatic Sketch of the Dual Completion, showing all casing strings, including size and setting, top of cement, perforated intervals, tubing strings, including diameters and setting depth, location and type of packers and side door chokes, and such other information as may be pertinent.
- Yes** b. Plat showing the location of all wells on applicant's lease, all offset wells on offset leases, and the names and addresses of operators of all leases offsetting applicant's lease.
- Yes** c. Waivers consenting to such dual completion from each offset operator, or in lieu thereof, evidence that said offset operators have been furnished copies of the application.\*
- Yes** d. Electrical log of the well or other acceptable log with tops and bottoms of producing zones and intervals of perforation indicated thereon. (If such log is not available at the time application is filed, it shall be submitted as provided by Rule 112-A.)

5. List all offset operators to the lease on which this well is located together with their correct mailing address.

**\* See Attached Sheet**

6. Were all operators listed in Item 5 above notified and furnished a copy of this application? YES ☒ NO ☐ . If answer is yes, give date of such notification **6-6-60** .

CERTIFICATE: I, the undersigned, state that I am the **District Superintendent** of the **British-American Oil Producing** (company), and that I am authorized by said company to make this report; and that this report was prepared under my supervision and direction and that the facts stated therein are true, correct and complete to the best of my knowledge.

**Thomas M. Hogan**

Signature

- \* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.
- NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
