Farmington, New Mexico*

Gentlemen:

This letter will serve as your authority to produce your #1 Astec well located in Unit F, Section 8-27N-9W from May 8, 1960 through May 30, 1960 in order to obtain annual deliverability test.

It is understood the well will remain shut in upon completion of the test until released by this office.

Yours very truly

Re: AZTEC NO. 1 - UNIT "F" Section 8-27N-9W
San Juan County, New Mexico

Gentlemen:

On March 23, 1960, the Petro-Atlas, Inc. #1 Aztec, located in Unit "F" Section 8, Township 27 North, Range 9 West, San Juan County, New Mexico, was ordered shut in for non-entailment of overage. The notice of shut in further stipulated that the subject well would remain shut in until further notice by the Commission.

The annual deliverability test for the Petro-Atlas, Inc. No. 1 Aztec has been scheduled for the month of May. The conditioning period was scheduled for May 8 to May 22, and the flow period was scheduled for May 22 to May 30, 1960. In order that the Commission will be able to assign an allowable for the subject well, it is requested that permission be granted to produce the well during the period May 8 through May 30, and then be re-turned to a shut in status.

If additional information or further explanation is required, this will be furnished upon request.

Very truly yours,
