13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

This well was scheduled to be plugged and abandoned in May 2002, however, XTO Energy will acquire all of the Marathon Oil Company San Juan assets as of July 1, 2002 and have requested extending its TA status to allow them additional time to evaluate this wellbore for Pictured Cliff/Fruitland Coal potential.

A successful MIT was completed on May 16, 2002; the well was pressured up to 550 psi for 45 minutes with no pressure drop.
