(Note: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The Bureau of Land Management previously approved our Sundry Notice dated August 9, 1982 to plug and abandon the subject well(8/16/82). The well has not yet been P & A'd. Since two years have elapsed, we are re-submitting our proposal to plug and abandon this well.

The Dakota Zone production was lost on Well No. 2 on December 8, 1980. Subsequent workover/swabbing from 4/17/81 to 6/22/81 failed to return the well to production. Evaluation of well shows P & A to be the best action.

Attached is our proposed procedure to plug and abandon this well.

Approval to plug & abandon the above well is granted for a period not to exceed 120 days. Plugging operations must commence within the above prescribed time.
