HISTORY OF OIL OR GAS WELL

10-43094-2 U. S. GOVERNMENT PRINTING OFFICE

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or hauling.

Spudded 4-27-61. Drilled with rotary tools to 1325'. Top of Dakota was 1323'. Ran and cemented 1325' of 5 1/2", 11#, J-55 casing with 300 sacks regular with good returns to surface. Moved rotary out and cable tools in. Drilled with cable tools to 1362' with fair show of oil. Ran tubing and rods and released rig 5-4-61. Pumped 8 BW and 267 BW per day, after being pumped long enough to stabilize. Completed natural open-hole in Dakota formation.
