Well No. 2 Thompson is located 290 ft. from N line and 290 ft. from W line of sec. 2

SE/4 Sec. 2 (1/4 Sec. and Sec. No.) T-27N, R-12W (Twp.) (Range) N 1021 (Meridian)
West Putz Canyon (Field) San Juan County (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 5983 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

A 7-5/8" hole was drilled with rotary tools to a depth of 161.2' where 161.2' of 5 1/2" casing was cemented with 100 sacks of cement. Cable tools were moved on and the cement plug drilled and the hole bailed dry. The hole was tested for 2 hours for water and it was found that a satisfactory cement job was had, and the well was drilled with cable tools to a total depth of 175.2'.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
