13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is intended to drill out the cement retainer at 1597' and cement to 1630' to add rat hole in this well. The Fruitland perforations are 1430'-1596'. With the additional rat hole, this will allow us to lower the tubing and prevent future gas locking of our Fruitland Coal rod pump.
