(other) Request for Continuation of Current SI Status

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

It is requested that a continuation of the current shut-in status for the subject well be granted for the following reasons:

1. The well is located upon cultivated land under center-pivot irrigation operated by NAPI. An remedial work to be done would necessarily have to be performed during the non-growing season.
2. The value of a replacement well is uncertain because 18 Pictured Cliffs wells completed in this Township by DEPCO, Inc. nine months ago remain unconnected due to gathering-line right-of-way problems confronting the gas purchaser.

*approved subject to recompletion, w/c, or PFA work beginning by November 1, 1982. Sundry Notices of intent must be approved prior to that date.*
