

DUAL COMPLETION

February 19, 1959

EL PASO NATURAL GAS COMPANY

Memorandum

To: Initial Potential Distribution List

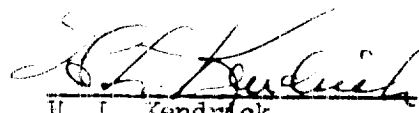

Date: February 20, 1959

From: Gas-Production Engineering

Place: Farmington, New Mex.

SUBJECT: Initial Potential of a Worked over Well.

The attached Initial Potential test was made on this well after work over. This test signifies the completion of the work over and the well is ready for re-connection and production to the gathering system.
