13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work . If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)"

On 2/22/1999, Amoco received permission to delay the installation of compression until September. A review of the proposed installation of compression for the subject well does not indicate that the well would return to productive status, we therefore, will proceed with plans to plug and abandon the wellbore. Plugging procedures are being formulated and will be forwarded to your office for approval upon completion.
