Mr. Keith Swainson
Meridian Oil Inc
PO Box 4289
Farmington NM 87499

RE: Southland Royalty Co, Frontier E #1, O-04-27N-11W

Dear Keith:

Enclosed please find a copy of the 1993 Packer Leakage Test on the referenced well which indicates that the well was not tested. All multiple completions with Packers are required to be tested regardless of status. Disconnected wells may be tested by flowing the higher pressured zone to the atmosphere for as long as it takes to reduce the pressure enough to tell if the zones have communication. The 1992 test indicated the well had a packer leak, so I think we can assume it still does.

In order to comply with Rule 112A, you are hereby directed to initiate immediate remedial activity.

Yours truly,

Charles Gholson
Deputy Oil & Gas Inspector
