Re: El Paso Natural Gas Co.
Sharp #2, P-18-28N-8W

Dear Mr. Dawson:

The attached Bradenhead Test Report received here July 8, 1976, indicates that the casing has failed in the subject well.

Rule 108 requires that the operator of a well with defective casing shall proceed with diligence to repair the well or to plug and abandon the well.

File Form 9-331 showing the intended repair prior to any field action for this repair.

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick
