17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The following is an "Application for Suspension of Production" for the last producing well on a Federal jurisdictional lease.

1. The Da on Pah No. 1 lease is in its extended term.
2. The Da on Pah No. 1 is the only well on the lease and is currently shut-in due to lack of market demand. The well is produced one day per month to hold the lease.
3. The Da on Pah No. 1 is a ~~stripper well~~.
4. The Da on Pah No. 1 produces 100 MCFPD and is therefore capable of production in paying quantities. Failure to suspend production on the subject lease could lead to premature abandonment.

Approval of this Sundry Notice does not imply approval by the BIA. Before approval of suspension of production can be granted, consent of the mineral owners must be obtained and BIA concurrence will be requested.

THIS APPROVAL EXPIRES **MAY 30 1990**

18. I hereby certify that the foregoing is true and correct
