ADMINISTRATIVE ORDER DHC-871

Arco Oil & Gas Company  
600 North Marienfeld  
Midland, Texas 79701

Attention: Tony Long

RECEIVED

FEB 1 1993

OIL CON. DIV.  
DIST. 3

*Schlosser WN Federal No. 1-E  
Unit K, Section 10, Township 27 North, Range 11 West, NMPM,  
San Juan County, New Mexico.  
Basin - Dakota and Kutz - Gallup Pools*

Dear Mr. Long:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C-4., total commingled oil production from the subject well shall not exceed 40 barrels per day, and total water production shall not exceed 80 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's San Juan Basin Gas Proration Schedule.

Administrative Order DHC-871  
Arco Oil & Gas Company  
January 28, 1993  
Page 2

In accordance with the provisions of Rule 303-C, the supervisor of the Aztec District Office of the Oil Conservation Division shall determine the proper allocation of production from the subject well following its completion.

Pursuant to Rule 303-C-5, the commingling authority granted by the order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 28th day of January, 1993.
