Dear Susan,

The 1993 Packer Leakage tests on the referenced wells indicated communication between the producible zones. Your office was directed to initiate remedial activity on each well. We have had no reply from you and apparently no remedial action has been taken. You are hereby directed to initiate activity to bring the subject wells into compliance prior to March 15, 1995, failure to comply may result in fines or allowable cancellation.

Yours Truly,

Charles Gholson  
Deputy Oil & Gas Inspector
