17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)

Proposal:

To lay a 2-3/8" EUE J-55 8rd 3000# test line on top of surface, approximately 400'
in length from our 3-phase production unit on location to a El Paso Natural Gas Co.
open valve with a meter station 400' Northeast crossing no roads or right-of-way's,
this area is in N.I.I.P. Block #5 and has an archaeology clearance.

We would like this approval for one year if possible as El Paso Natural Gas Co. should
have their permanent line before then.

This map accompanying this proposal request has explanatory lines, the solid lines from
well are El Paso's permanent line when installed, the broken lines are the ones we
wish to lay.

This gas line to be marked each 200' with a danger high pressure gas line 4' above
ground.
