17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

This well will be spudded in the near future. We had planned to use a foam cement for the 6800' long string 4 1/2" casing. We have changed and propose to run a stage collar at 4037' and use a regular cement program in an effort to cover the mesa verde formation with cement.
