17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Permission was granted by New Mexico Oil Conservation Commission to downhole commingle the Blanco Mesa Verde and the South Blanco Pictured Cliffs of the subject well by Order No. R-5352, Case No. 5832.

It is planned to accomplish this in the following manner:

Pull 1 1/4" tubing from Pictured Cliffs side.

Release seal assembly from Baker Model "N" packer and pull tubing from Mesa Verde side.

Rerun tubing. Landed below the Mesa Verde perforations.

If seal assembly will not release, then it is planned to remove both the tubing and the packer from the well.

18. I hereby certify that the foregoing is true and correct
