Dear Emery:

Gas Supplement (NW) 2548 dated October 31, 1957 shows a dedicated acreage of 178.47 to the EPNG Storey C No. 9 Well, L-34-28N-9W, South Blanco Pictured Cliffs Pool.

Administrative Order NWU-208 calls for 171.19 acres to be dedicated to the same well. A check of our records indicates that 171.19 acres is the correct dedication.

At your earliest convenience, will you please issue a corrected supplement changing the dedication and, consequently, the acreage factor assigned to this well.

With kindest personal regards,

D. H. Rainey
