17. DESCRIBE PROPOSED OR COMPLETED OPERATION (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface location and measured and true vertical depths for all markers and zones pertinent to this work.)\*

We are applying for an extension on our longterm shut in, which has expired. The reasons that we gave for our first shut in are still the same. The well will log off with water if is not produced continuously. We are working with another operator to take over the well and plug the No. 1 Cole. and drill another well in the same quarter Section.

It is a very old lease and there are considerable problems with the title. I had attorneys working on the title for a year and they cleared most of the problems and I got a large judgement against some of the previous owners. but haven't collected from any of them. I don't feel like investing any more money at my age, but have a client who is interested, and he is a reputable operator in this area. but it is going to take time and money. He is a Certified Public Accountant. I would like to have the longest extension that you might give me as these things tend to move slowly.
