Mr. A. L. Porter, Secretary and Director
Oil Conservation Commission
Box 371
Santa Fe, New Mexico

Dear Mr. Porter:

This is to request administrative approval of an unorthodox location to be located in the South Blanco Extension Pictured Cliffs Pool.

The well, our Storey No. 5-C was originally located 401' from the North Line and 362' from the West Line of Section 35, Township 28 North, Range 9 West, N.M.P.M., San Juan County, New Mexico. We have applied for and received from you, administrative approval to drill on this unorthodox location. Due to the location being on a ridge with steep sandstone sides, we have moved the location to 1972.6' from the North Line and 402' from the West Line of the same section. This puts the location on another ridge that is more accessible and the cost of the location and road considerably less.

The well is to be a Pictured Cliffs completion and since El Paso Natural Gas Company holds the lease in the NE/4 of Section 34 of Township 28 North, Range 9 West, the approval of other operators has not been sought.

I am enclosing two copies of the Certified Well Location Plat sketching terrain conditions and two copies of our intention to Drill.

Sincerely yours,
