Dear Ms. Maddox:

Reference is made to your recent application for an amendment to Division Order No. DHC-1298 dated July 17, 1996, to amend the original allocation percentages between the Aztec-Pictured Cliffs and Blanco-Mesaverde Gas Pools.

It appearing that the subject well qualifies for approval for such amendment pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones is hereby placed in abeyance.

The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's San Juan Basin Gas Proration Schedule.
