(Other) ☐

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Your letter of August 4, 1988 requires that action be taken to abandon or recomplete this well by September 6, 1988.

Recompletion to the Fruitland Coal will be attempted pending a successful casing integrity test. The Pictured Cliffs will be abandoned by setting a cement retainer in the 5 1/2" casing at 1985' and squeezing 25 sx (29 cu.ft.) of Class "B" neat cement (100% excess) under the retainer. Casing will be tested to 2500 psi. If the casing holds, a recompletion will be made to the coal interval. Failure of the casing will result in plugging and abandonment uphole according to Sundry Notice dated 12-10-87 and approved 12-18-87.

18. I hereby certify that the foregoing is true and correct
