

PLEASE READ BEFORE STARTING OPERATIONS

Attention is called to the following requirements for operators on Federal, Indian and Acquired land oil and gas leases. The District Engineer may require suspension of operations for your failure to comply with the "Oil & Gas Operating Regulations", and these requirements. A copy of the "Operating Regulations" will be furnished you upon request.

GENERAL

1. All drilling and producing wells must be permanently marked by a well sign in a conspicuous place showing the name of operator, lease name, serial number of lease, well number, and location. Well signs must be maintained in legible condition.
2. Any change in the proposed plan or condition of approval must have approval of the District Engineer BEFORE the change is made.
3. Approval of a notice of intention to drill or abandon any well will be rescinded without further notice if drilling or abandonment is not started within 90 days.
4. A Subsequent Report of Operations on form 9-331a (9331b Indian), in triplicate, must be submitted to the District Engineer giving complete information, including dates the work was done, covering:
  - A. On new wells
    - a. Cementing casing and method and results of water shut off tests. (Show spud date on first report submitted.)
  - B. On work overs
    - a. Deepening or plugging back
    - b. Perforating, acidizing, fracturing, shooting, casing alterations.
    - c. Drill stem and other production tests
5. Log, in quadruplicate, on form 9-330, must be submitted to the District Engineer within 15 days of completion, abandonment, or suspension unless operator is otherwise instructed by the District Engineer. The log should include a complete driller's log, descriptions and intervals of all cores, formation tops identified, results of all drill stem tests, perforating, fracturing, acidizing, shooting, production tests, and all other well information not previously reported. Duplicate copies of all electrical logs, sample logs, drilling time logs, temperature, deviation, and other well surveys also must be filed.
6. Monthly report of operations for each lease, in duplicate on form 9-329 (9-329A Indian), must be submitted promptly each month to U.S. Geological Survey, Box 6721, Roswell, New Mexico, beginning with spudding of the first well on a lease and continuing until abandonment of all drilling and producing operations is approved.
7. All wells and lease premises shall be maintained in a workman like manner with due regard to safety, conservation, and appearance.

Revised October 1957
