Re: Aztec Oil & Gas #12 well  
SE $\frac{1}{4}$  Section 19-26N-9W, Aztec  
Pictured Cliffs Pool

Gentlemen:

Copies of Federal Notice of Intention to Drill for the above well were received in this office September 10, 1959. Subsequent miscellaneous notices indicated that the well was drilled to a total depth of 2121 feet with 4" casing cemented at 2121 feet with 100 sacks. The record also indicates that the well was sand-water fractured; however a completion form has never been filed, nor has an allowable been requested.

Will you please indicate the present status of this well and also indicate whether you intend to permanently plug and abandon the well or whether you intend to attempt to make a producing well of it.

Yours very truly

ACA:ks

Emery C. Arnold
