Certificate No. 1463

INSTRUCTIONS FOR COMPLETION OF FORM C-128

1. Operator shall furnish and certify to the information called for in Section A.
2. Operator shall outline the dedicated acreage for *both* oil and gas wells on the plat in Section B.
3. A registered professional engineer or land surveyor registered in the State of New Mexico or approved by the Commission shall show on the plat the location of the well and certify this information in the space provided.
4. All distances shown on the plat must be from the outer boundaries of the Section.
5. If additional space is needed for listing owners and their respective interests as required in question 3 of Section A, please use space below.

*Federal Oil and Gas Lease Santa Fe 044535 (b) covering the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 15, T-28N, R-11W, is being conveyed to The Ohio Oil Company by Southern Union Gas Company. Inasmuch as there are two federal leases covering all of the SE $\frac{1}{4}$ Section 15, said leases are being communitized in order that allocation of production can be made to each of the tracts covered by the two leases. Southern Union Gas Company is presently the owner of operating rights under the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 15 by virtue of an operating agreement dated July 10, 1953 between Marquis G. Eaton, et ux and Southern Union Gas Company. For this reason Southern Union Gas Company and Marquis G. Eaton, et ux will become parties to the Communitization Agreement along with The Ohio Oil Company although Southern Union Gas Company will, in fact, no longer have an interest in the tract after the conveyance is made to Ohio. It is expected that the Communitization Agreements signed by all parties in interest and those of record in the BLM office will be filed, for approval by the Director, with the U.S.G.S. in the very near future.
