Re: Reid A #1 A-13-29N-10W
Reid #19 B-18-28N-9W

Dear Smitty:

The attached Packer Tests for the referenced wells were inconclusive in proving zone separation.

Please reschedule and retest the wells in such a manner as to prove zone separation. Shut both zones in for a minimum of three days and blow the higher pressured zone to the atmosphere for as long as it takes to get a significant pressure drop.

Please advise this office at least 24 hours prior to the tests so we may provide a witness.

If you have any questions, please contact me.

Yours truly,

A handwritten signature in cursive script, reading "Charles Gholson".

Charles Gholson
Deputy Oil and Gas Inspector
