6. IF INDIAN, ALLOTTEE OR TRIBE NAME

7. UNIT AGREEMENT NAME

8. FARM OR LEASE NAME

Omler A

9. WELL NO.
5E

10. FIELD OR WILDCAT NAME

Basin Dakota/Bl. Chacra

11. SEC., T., R., M., OR BLK. AND SURVEY OR AREA

Section 25, T28N, R10W

12. COUNTY OR PARISH

San Juan

13. STATE

New Mexico

14. API NO.

15. ELEVATIONS (SHOW DF, KDB, AND WD)
5802' gr.

(NOTE: Report results of multiple completion or zone change on Form 9-330.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

12/15/80

Tenneco proposes to complete this well as a dual, and proposes the following casing design changes:

Hole Size	Casing Size	Weight	Depth	Cement
12-1/4"	9-5/8"	36#	+ 250'	Circ. to surface
8-3/4"	7"	23#	+ 4650'	Circ. to surface
6-1/4"	4-1/2"	10.5#	+ 6360'	Circ. to liner top

Subsurface Safety Valve: Manu. and Type _____ Set @ _____ Ft.

18. I hereby certify that the foregoing is true and correct

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.

Tenneco Oil Company
P.O. Box 3249
Englewood, Colorado 80155

Gentlemen:

Reference is made to the enclosed Sundry Notices for your well numbers' 3E (section 26), 6E (section 36), and 5E (section 25), all located in Township 28 N., R. 10 W., San Juan County, New Mexico.

These Sundries request approval to dual complete using 4½" casing. The New Mexico Oil and Gas Commission will not approve the production of gas through the annulus on dual completions, and will therefore require two tubing strings for production on these wells.

You may not wish to run two tubing strings within your 4½" casing,, rather 5½" casing inside of 7" or 7 5/8" casing. For this reason, the Sundries are returned for your review and resubmittal.

Sincerely yours,

James F. Sims
District Oil and Gas Supervisor
