17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was originally staked 1105 feet from the South line and 790 feet from the East line of Section 12, Township 28 North, Range 11 West. It was then re-staked 1105 feet from the South line and 790 feet from the West line of Section 7, Township 28 North, and Range 10 West.

The location was re-staked before any inspections were made, but we failed to file the proper forms to change the location from Section 12 to Section 7. The Application to drill was filed and approved in Section 12, but the well was drilled and completed in Section 7, Township 28 North, and Range 10 West.

All forms previously filed have shown the wrong location.

The acreage dedication of 192.97 acres has been approved in a hearing of the Oil Commission in Santa Fe, New Mexico.
