Dear Mr. Knauff:

You submitted Forms C-104 to this office about two weeks ago on your well.

Our records do not show you as the operator of the well and we would like very much to have our records complete. If there has been a change in operator we would like the operator to submit Form C-110 to this office showing the change in operator.

Since the well was not tested for an Annual Deliverability test during 1955 the maximum allowable for the well will be the "breaking point" allowable for the pool the well is in. This will remain in effect until the end of 1956 or until the well has been tested.

If we can be of further assistance please contact us.

Yours very truly

A. R. Kendrick
Engineer, District #3
