Attention: Mr. A. R. Kendrick, Engineer, District #3

Gentlemen:

The cement plugs were drilled and cleaned out down to 4350'. The interval from 4120' to 4350' was fraced with 1875 barrels of oil. The load oil was recovered with no new oil and a small amount of water. As you know, this well has already been plugged.

Yours very truly,

P-M DRILLING COMPANY

Hulen Lemon, Superintendent
