The elevation of the Ungraded ground above sea level is 7020 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Spotted 70 sx cement from 350' to 332 1/4', ran Dia-Log Free Point, shot casing at 1316', then filled with heavy mud to 1360' and spotted 25 sx cement from 1360 to 1279, then filled with heavy mud to 242', then set 25 sx plug to 167' filled w/heavy mud and 10sx plug to surface and then set prescribed 4"x4' marker.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
